

Free Programming Sessions All ages!

Do you want to learn programming?

North Coast Computer Academy has you covered! We offer:

- Intro to intermediate Python and Javascript (it's more than just coffee!)
- Linux? Ubuntu? Mint? Want to know more? Come and see!
- How-to sessions on developing an web app/page
- A place to ask any and all questions! What makes programming useful? Isn't a python just a snake? Why is the meaning of life 42?
- Finally, AI is all the rage, so come by and see chatbots/LLMs running on local laptops, and maybe even set up your own laptop to run one!

Come by the library Tuesday/Thursdays
5-6pm!

- Bring your own laptop for programming, AI, or to set up a learning plan
- No laptop? No problem! A couple of laptops running Linux Ubuntu or Mint will be available to try out!
- Contact Quentin Crain @ ncca.qcrain@gmail.com for any questions
